Professional Summary

Computer Science and Engineering undergraduate at BRAC University who builds and deploys web applications using AI-assisted development workflows. Projects include map-based discovery apps for Dhaka and a catalog website with an admin panel for a used camera resale business. Interested in software engineering, problem-solving, entrepreneurship, and research.

Education

BRAC University, Dhaka, Bangladesh

B.Sc. in Computer Science and Engineering
Expected graduation: 2029

Technical Skills

- **Programming:** Java
- **Web development:** HTML, CSS, React, Next.js
- **Maps and data:** Leaflet, OpenStreetMap data, geolocation
- **Database and backend:** Supabase, SQL
- **Tools:** Git, GitHub, VS Code, Vercel, Mathematica
- **Other:** AI-assisted development, debugging, deployment

Projects

Digital Cams BD Website | Catalog and Admin Panel

- Built a database-driven catalog website for a used camera resale business to reduce repetitive customer messages on Instagram.
- Developed a private admin panel with authentication for managing listings, using React, TypeScript, Tailwind CSS, and Supabase.
- Deployed the live site on Vercel with automatic deployment from GitHub.
- Link: https://digital-cams-bd.vercel.app/

Dhaka Hangout Finder | Personal Project

- Built a location-based discovery platform for restaurants, parks, malls, and other hangout spots in Dhaka.
- Integrated geolocation, radius-based filtering, an interactive Leaflet map with routing, and live place data.
- Wrote a Node.js scraper to collect and filter OpenStreetMap data into a clean dataset.
- Deployed a live version of the application on Vercel.
- Link: https://dhaka-hangout-finder.vercel.app/

Dhaka Poshur Hat Finder | Personal Project

- Developed a web application to help users discover nearby Qurbani livestock markets.
- Integrated interactive maps, location-based search, and distance filtering.
- Deployed the application on Vercel.
- https://dhaka-poshur-hat.vercel.app/

Entrepreneurship and Experience

Founder, Digital Cams BD

- Run a used digital camera resale business, including product sourcing, listings, customer communication, and sales through Instagram.
- Coordinate product preparation, pricing, order fulfillment, and customer service.
- Handle the whole marketing on social media and sales all alone

Research

Burning Through the Gaps: The Lack of Legality and Technology in Fire Disaster Management

- Co-author (CSE) with a School of Law lead author. Presented at NSU Law Fest Season III, a national conference on contemporary legal issues hosted by the North South University Law and Mooting Society.
- Argued that Bangladesh needs stronger enforcement of existing fire-safety law through technology, and proposed a national compliance registry, IoT sensors, and GIS and drone surveys of high-risk buildings.

Leadership and Extracurricular Activities

- **BUCC (BRAC University Computer Club):** Research and Development, General Member. As a general member I actively participate and fulfill all the duties and try to provide creative ideas and help to implement those.
- **NASC(Neutrino ACC Science Club):** Photography Secretary: Was the panel member and fulfilled the duties that were bestowed upon me and earned the award of excellence.

Certifications and Achievements

- Certificate of participation: Burning Through the Gaps: The Lack of Legality and Technology in Fire Disaster Management
- Certificate of completion: Digital Dojo(BUCC)
- Award of excellence(NASC)

Additional Information

- **Languages:** Bangla [Fluent], English [Fluent]
- **Interests:** Software engineering, entrepreneurship, teaching, photography, research
